

Critical Skills and Practice

Tutorial 8 - Returning to Goals

1 Introduction (5 minutes)

Your tutor will provide some reflections on their time working with you this semester.

2 Pair Project Presentations (20 minutes)

Turn and talk to a partner about your project. You each should take about five minutes explaining what you did, why you did it, and what you learned as you went through the project. After ten minutes, you should repeat this process with a different partner.

3 Individually Returning to Goals (10 minutes)

Work quietly on your own working through the list of goals you made at the beginning of the semester, and jot down some thoughts that may inform the reflections that you will submit at the end of the semester. Consider the following questions as you look back on your goals:

1. Do you feel on track to accomplish your goals?
2. Have your goals shifted at all? If so, how?
3. What is the most surprising thing about how this semester has gone?
4. What are you most excited about going forward?

4 Returning to Goals as a Group (10 minutes)

Have a whole group discussion about your goals and any other reflections you have on this course.

5 Closing (5 minutes)

Time to ask questions and share any final thoughts.
