2025: Software Design and Modelling

Perdita Stevens

School of Informatics
University of Edinburgh

How will the course run?

- Lecture videos online, supported by:
- In-person practice and discussion session each week – Fridays at 10am, LG.11 40 George Square Lower Teaching Hub;
- Labs from Week 2, in person in AT6.06 (10-12 Tuesdays), using (mostly) online tools;
- Readings and videos for skills and deeper background – some compulsory, some optional;
- Piazza for questions **and announcements**: do join.

Assessment

50% lab assessment **in place of the week 6 lab**. That is, Tuesday 25th February, 10-12: you **must** attend.

Aims not to be scary, but to check you have kept up and are ready for the second part of the course.

Assessment

50% lab assessment **in place of the week 6 lab**. That is, Tuesday 25th February, 10-12: you **must** attend.

Aims not to be scary, but to check you have kept up and are ready for the second part of the course.

50% written exam.

Same format as for the past few years: compulsory question 1, then a choice of 2 questions.

Note

This is likely to be the last presentation of this course. At any rate, next year I shall be on sabbatical and the course will not run. So if you know anyone planning to take it in future...!
